[] LIAISON called Bill Miller, Staff Director, Senate Select Committee on Intelligence, to ask for further clarification on the letter from Chairman Birch Bayh (D., Ind.) in which the Committee asked for a list of all books currently in publication which deal with CIA and the Intelligence Community. Mr. Miller said that the Committee was interested in all books that had been published on the general subject matter ranging over the past five to eight years as well as the roughly nine or ten that are alleged to be currently in the hands of publishers. I passed this requirement on to the Office of Public Affairs []

17. [REDACTED] LEGISLATION Spoke with Pat Norton, Senate Select Committee on Intelligence, staff, with regard to the upcoming charter legislation hearings. Mr. Norton indicated the following schedule for July: 11 July and 18 July -- representatives of the "American Friends Service Committees," "Women's Strikes for Peace," and "Chicago Political Surveillance Litigation and Educational Project;" 20 July -- unnamed academics dealing with the topic of "Intelligence Activities on Campus;" 27 July -- former Secretary of State Henry Kissinger. Another day of hearing, as yet unscheduled, will be held at which representatives of the ACLU and Larry Silverman, former U.S. Attorney and Ambassador to Yugoslavia, will testify. Mr. Norton also indicated that testimony given by Mr. Emerson (Yale Law Professor) on 22 June will prove most useful especially during the ACLU testimony coming up in July. In that regard, Mr. Norton indicated that while Mr. Emerson stated one view in his statement, when asked specific hypotheticals he took a much more "reasonable" position on the issue. Mr. Norton said this boosted his opinion of the "reasonableness of liberal critics" and indicated that even they can be educated to the sensitivities involved. Mr. Norton went on to say that Mr. Emerson's "reasonableness" will be useful tool to use when the Committee hears testimony from ACLU representatives.

10. (Unclassified - RLB) LEGISLATION Received a call from Mr. Jack Sands, House Merchant Marine and Fisheries Committee, Merchant Marine Subcommittee Staff, concerning H. R. 9998, the "Ocean Shipping Act of 1978," which the full Committee had marked up earlier today. Mr. Sands thanked us for our views letter to Representative Paul McCloskey (R., Calif.) on certain provisions in this legislation which, in conjunction with other reports on the bill from other agencies, provided the basis on which the troublesome provisions had been deleted. I thanked Mr. Sands for his assistance in having brought this matter to our attention.

11. (Unclassified - RJW) LEGISLATION Spoke with Bob Carlstrom, OMB, with regard to the Justice Department proposed testimony on H. R. 12171, the "Federal Accounting and Auditing Act of 1978." I indicated to Mr. Carlstrom that we had two problems with the testimony: first, CIA does not intend to present its views to Subcommittee, contrary to the Justice Department statement to that effect on page 5 of the proposed testimony; secondly, the Justice Department approach, linking the audit issue to the approach taken in the charter legislation, in our opinion, could prematurely lock the Administration position. Mr. Carlstrom agreed to have Justice delete the offending sentence on page 5. With regard to the charter issue it was agreed that a sentence should be inserted in the testimony to indicate that with regard to the charter legislation any views expressed in the testimony should be construed as those of the Justice Department alone; adding that the charter legislation is currently under review within the Administration.

12. (Unclassified - RJW) LEGISLATION Called [redacted] IC staff, to inform him of our 1:30 p.m. meeting with State Department and Justice Department as well as OMB on H. R. 12240, the intelligence authorization legislation. [redacted] said he'd be sending an IC staff representative. Substantively, [redacted] agreed with our assessed position on the matter of Title IV of the bill.
